# Why Choose LEDs over other lights?

## **Cost Efficient**

The LED lights pay back in long term. With a longer life span and low maintenance costs, it becomes the most energy and cost efficient light available. It is a profit to your investment in the long run.

## **Easy Installation**

We ensure easy light installations at your place without hampering your day to day business. You can surely upgrade to better lighting with little or no downtime with MG Lightings.

## **Low Maintenance**

LEDs can smoothly run for over 90,000 hours without any disturbance or restoration which is 9 times than any ordinary fluorescent light's lifespan.

## **Suggested Products**

Our best suggestions for industrial lights are IP65 LED Flood Light, Panel Light and High-Bay Light. All of these lights come with a sweeping warranty of 3 to 5 years.
